| <input type="checkbox"/> Infection / Abscess | <input type="checkbox"/> Other _____ |

Notes: _____

For IV Sedation / General Anesthesia:

1. Sedated patients cannot drive home, so a separate driver must be present.
2. The driver must stay in the office / waiting room for the entire sedation visit, The driver cannot leave & come back.
3. The patient must have an EMPTY STOMACH for 8 hours, nothing by mouth - for safety, not even water.
- 4 Take all of your usual home medicines, at the usual times you take them - unless directed otherwise by the doctor.

Patients will NOT be sedated on the first visit. Sedation / general anesthesia requires an initial consult appointment first.

Please bring the name of your primary care physician & a list of all current medications to the consult visit.
